

First Semester 2023 - 2024
Artificial Intelligence (CS F407)

EVALUATION SCHEME FOR ASSIGNMENT PHASE-II

Make a video presentation of the project with **code walkthrough** for a time range of 5 - 7 minutes.

Share the code via any repository, and upload **video presentation file****.

If required, you may have to present the video to me (tentative).

The assignment is for 20 marks.

The marking scheme for code walkthrough will be based on:

Implementation of Search algorithms	3 marks per algorithm
Comparative Analytics: Presentation of variations in results with suitable performance evaluation metrics/scores, and graphical representations of results	2 marks per visualization or approach
Creation of GUI, Creativity, Novelty, Domain Knowledge & All that extra stuff apart from SEARCH & Knowledge Representation.	2 marks
Design and Modularity of Code	2 marks

**** IMPORTANT DATES**

Recommended Day to upload the video file* in shared drive – Sunday,19-Nov-2023

Deadline without penalty – 5:00pm 20-Nov-2023

Submissions after deadline will incur relative penalization of marks.

No extensions or make up requests will be entertained.

Keep following the guidelines announced in class.

*links/zip not accepted. Only (mp4/avi) files
